And label the envelope &  
check with "The Curse"

Read the first  
chapter  
**NOW!**

*It was really a very insightful book. I started reading about 9 PM and finished it before going to bed. Many, many thanks" - Elaine, Virginia*

*"I'm currently reading your book for the third time, and each time I read it I discover something new." - Myrtle, Virginia*

*Your book "The Curse" is the only book of its kind that I have read. It is fascinating to see how the sin of man and its subsequent curse affects all of the earth, if not probably all of God's creation. Everyone should read it." - Frank, Connecticut*

*"...easy to read writing style. You wonderfully keep it so simple that even a wayfaring stranger could not miss the message. Just a really great, sound big summary of the historical picture. You hit the nail on the head! I hope everyone reads it." - Dr. Floyd Jones, Texas*

*This is very well written and organized - definitely more of a study with meaty information - a book one would re-read over and over and use for a reference. It's a great book!" - Jeanmarie, New York*

Author Sam Mason  
Host of Daybreak  
On WTRM 91.3FM

*"I found your book to be interesting, informative, and personally helpful. I was... taught a lot about the Bible as a child... I rebelled. I gave up on my religion and the church for many years, more years than I'd like to admit to. During those years I found myself making comments like: God doesn't care. If He really cared there wouldn't be so much hatred in the world, so much pain and suffering, small children sick and dying, people killing people. Reading your book has helped me understand a lot of things. ...I do want you to know you have helped at least one person. That person needed to find her way back to the Lord. Thank you, Sam." - Patty, Florida*

*"This book is a wonderful supplement to the Book of Genesis regarding the Creation, Flood and Post-Flood world." - Jeff, Texas*
